Shortfall in Head Start Slots in Racine

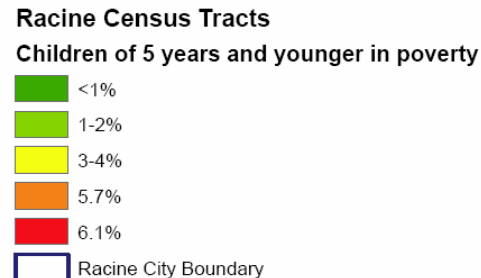

Demographic Trends Children Under 5

Demographic Trends – Racine County Children Living in Poverty

Child poverty in Racine County by Census Tract

% of children 5 years and younger in poverty from total population

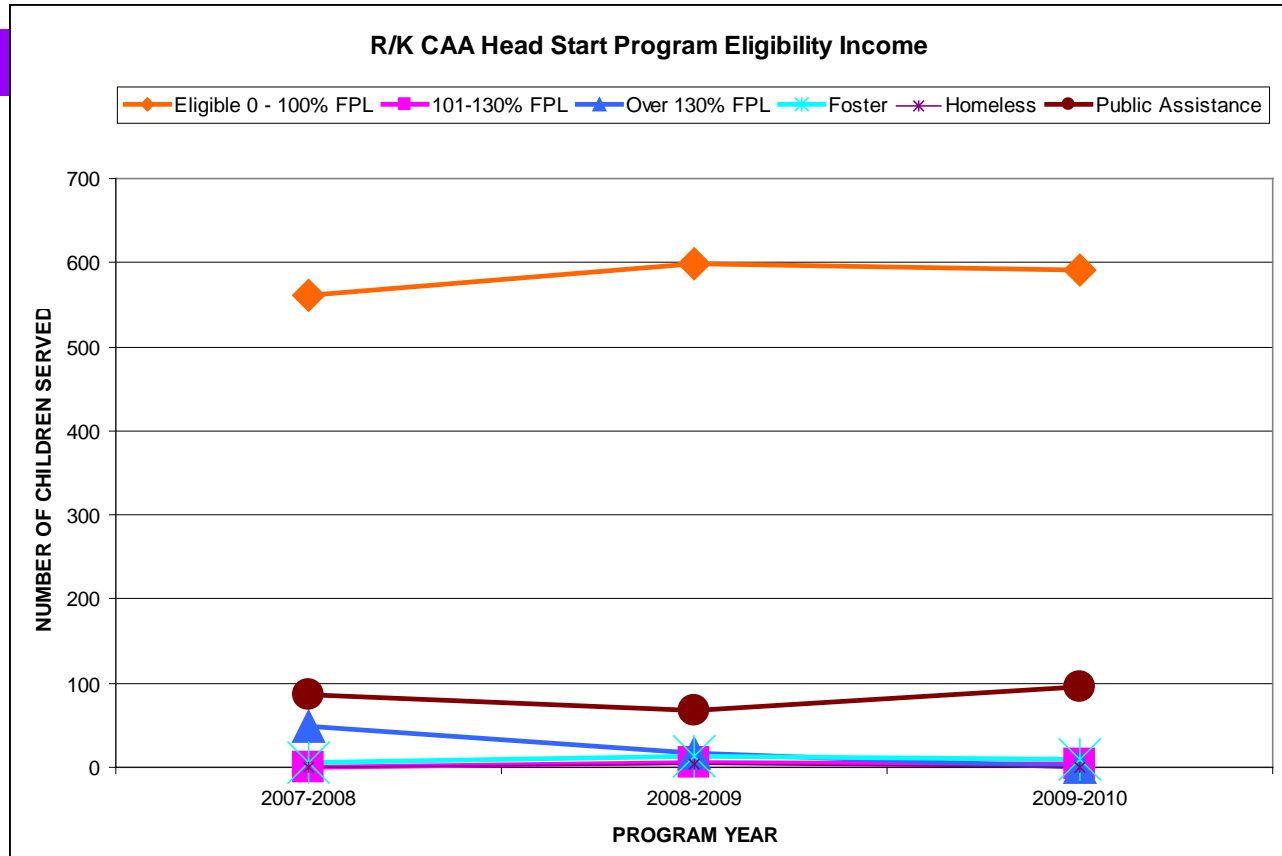

Source: US Census 2000 Table P87

Nonprofit Center of Milwaukee 2010

Demographic Trends – City of Racine Children Living in Poverty

Income eligibility of Racine Head Start Enrollees

Children with Special Needs

12.3% (104 out of 847) children in the R/K CAA Head Start program in 2009-2010 had a diagnosed primary disability

- 90 speech or language impairment
- 7 emotional/behavioral disorders
- 5 non-categorical/developmental delays
- 2 orthopedic impairment

Location of other child care providers in Racine

Focus Groups with Racine Head Start Families

2 focus groups were held in 2010:

- Head Start Policy Council Representatives
- Adults with children enrolled in Racine County's Head Start program who were not on the Policy Council

Focus Groups - Housing

Some of the problems mentioned included:

- The waiting list for Section 8 vouchers
- The high cost of utilities, particularly in winter
- Being told they make too much to qualify for energy assistance

Focus Groups - Education

Some of the problems mentioned included:

- Need better education to get many jobs
- High cost of education for adults
- Difficulty of managing school plus work plus kids

Focus Groups - Health

Some of the problems mentioned:

- Hard to find doctors & dentists who will accept BadgerCare Plus
- Long waiting lists
- Many people earn too much to qualify for state health insurance, but not enough to pay for private or employer insurance
- High cost of prescription drugs
- Lack of mental health/substance abuse services

Focus Group Conclusions

- Poverty is a web of needs that make life difficult
- Needs extend beyond basic needs, impacting
 - Educational success
 - Employability
 - Health
 - Personal and family repercussions
